The Commissioners

Chief Floyd Bartch (Retired), *Chair*

Chief Floyd Bartch retired from the Kansas City, Missouri police department on April 2, 1999. After retirement, Chief Bartch served and continues to serve on various committees and boards concerning public issues in the Kansas City Metropolitan area. During his 31-year career with the police department, Chief Bartch was involved in the development of many programs. However, his experience in criminal justice and financial matters and as a lobbyist for the police department should assist him with gaming issues in the State of Missouri.

Judith (Judy) Sutter-Hinrichs, *Vice-Chair*

Judy Hinrichs recently retired after a career that included public relations, marketing and not-for-profit management. Ms. Hinrichs has considerable volunteer experience as a community activist in civic, health, social service and cultural organizations. She serves as a board member of the St. Mary's Hospital Foundation of East St. Louis, Illinois and as a national board member of the Business and Professional Women's Foundation. She has served as President of the St. Louis Zoo Friends Association and the Asthma and Allergy Association. She has been an executive board member of the Missouri Environmental Improvement Energy Resources Authority (EIERA), Missouri Goodwill Industries, Leadership St. Louis, Life Crisis and the St. Louis Junior League as well as board member of many other organizations. As a member of the RCGA Public Policy Council and the RCGA Illinois Public Policy Council, Ms. Hinrichs remains committed to the improvement and growth of downtown St. Louis and the St. Louis region. She and her husband, Rich Meckfessel, live in St. Louis County.

Ralph Biele

Ralph Biele retired from the Missouri State Highway Patrol in 1996. At the time of his retirement, he served as the assistant superintendent of the Patrol. From 1996-2000, Mr. Biele served on the staff of the Missouri Gaming Commission as the Department Director responsible for overseeing all of its enforcement activities. He is very active in the community and is a member of several civic and charitable organizations. He is a member of the Missouri Boy's State Board of Directors and currently serves on the Executive Committee as their treasurer. He was recently inducted into the Missouri Boy's State Hall of Fame. Mr. Biele has also been active in Missouri Special Olympics for many years and is currently on the Board of Directors, having served as the Board Chairman from 1991-1993. His law enforcement background, coupled with his gaming enforcement experience, should assist him in his duties as a Commissioner.

Darryl T. Jones

Darryl T. Jones was formerly employed by Southwestern Bell Telephone Company, now known as SBC, for 15 years as a planning and design engineer and later as a financial analyst. After his career with Bell, Mr. Jones took the bold step in becoming an entrepreneur by forming his own foodservice management company known as TRI-TEC, Inc. Over the past 10 years, he has strategically formed joint-venture partnerships with some of the giants of the foodservice industry: Levy Restaurants in operating the foodservice at America's Center and the Edward Jones Dome; HMSHost in operating the foodservice for Lambert International Airport; and Aramark in operating foodservice for the St. Louis Public Schools. Mr. Jones is currently volunteering numerous hours with several non-profit organizations: Trustee with Fontbonne University, Chairman Garden District Commission; Board Director with Our Little Haven; and Board Director Epsilon Lambda Foundation of Alpha Phi Alpha Fraternity. Some of his former civic duties included: Secretary/Treasurer Missouri Housing Development Commission; Chairman St. Louis Metropolitan Sewer District; St. Louis Public Schools Role Model Program; and Board Director of Inroads St. Louis. Mr. Jones and his wife, Villa, and sons are long time residents of St. Louis City.

Noel J. Shull

Noel Shull has extensive experience in the financial services industry, primarily in the commercial lending area. He has served the Missouri Bankers Association as Chairman of their Governmental Affairs Committee. The U.S. Small Business Administration National Advisory Council Chairman appointed him Chairman of the Access to Capital Committee in 1988 and 1996. He has served on the board of directors for several banking institutions. Mr. Shull has volunteered on many charitable organization projects, including Missouri Cattlemen Foundation Board, Students in Free Enterprise International Exposition Judge, American Royal Governor and committees and University of Missouri-Columbia Honorary Professors Programs. He received an undergraduate degree from UMC in finance and real estate and a graduate degree in banking from Southwestern Graduate School of Banking at Southern Methodist University in Dallas, Texas. Mr. Shull is a past recipient of the U.S. Small Business Administration Regional Financial Services Advocate of the year award and the Kansas City University of Missouri-Columbia Business Alumni Chapter, 2004 Alumni of the year award.

Message from the Chairman

On behalf of the Missouri Gaming Commission, it is my pleasure to present the annual report for FY 2005. This report is submitted to comply with Section 313.837, RSMo, and contains an account of the Commission's activities over the past year. The report includes a summary of the status of each licensed gaming facility; a report of gaming tax and admission fee collections; an analysis of the gaming markets in Missouri; a summary of the responsibilities and activities of each section of the Commission's staff; a report on the status of the gaming industry affirmative action programs; and an update on the Commission's programs for problem gamblers and their families.

The report also contains a section fulfilling the Commission's statutory mandate to report to you on the effect of the loss limit on the competitiveness of Missouri riverboat casinos versus gaming facilities in neighboring jurisdictions. You may notice that the Commission offers much less commentary on the loss limit than it has in previous years. For the past decade, this Commission has reported to you that the data clearly shows the loss limit renders Missouri riverboat casinos less competitive versus its competitors in Illinois, Iowa and Mississippi.¹ There has been little change in the data over the past decade, making the issue as to whether the loss limit has a negative impact on Missouri casino's ability to compete with neighboring states well settled. The Commission continues to recommend you consider repealing this reporting requirement. The Joint Committee on Gaming and Wagering supports this position as indicated by its adoption of a resolution expressing its opinion on the issue during the 2005 legislative session.²

The gaming statutes also require the Commission to suggest changes in the adjusted gross receipts tax as provided in Section 313.822, RSMo. On pages 7-9, you will find a detailed analysis of Missouri's gaming tax rate as it compares to the gaming tax rates in other riverboat gambling states. In addition, the report provides the Commission's view of how tax rates affect the economics of gaming, the quality of the operations located in the state and the impact of gaming taxes on employees, home dock communities, patrons and state revenues.

Another of the Commission's statutory mandates is to provide recommendations for legislation the Commission deems advisable. Two years ago, the Commission opened the debate regarding the expansion of enforcement authority for Commission agents. The current system has served the citizens of Missouri and Commission admirably during the startup phase of riverboat gambling. It provided an immediate influx of experienced law enforcement officers who had established an important bond of trustworthiness with the

A handwritten signature in black ink that reads "Howard Baxter". The signature is fluid and cursive, matching the printed name above it.

¹ Indian casinos do not release the results of their operations. Thus, we are not able to provide an analysis of the competitive environment versus the Indian casinos in Kansas.

² The resolution states, in part that:

“WHEREAS, the Joint Committee on Gaming and Wagering recognizes the importance of maintaining the independence of the Missouri Gaming Commission; and

WHEREAS, the Joint Committee on Gaming and Wagering believes that requiring the Missouri Gaming Commission to report on the effects of loss limits unnecessarily involves the Commission in a political issue, which is inconsistent with the duties of an impartial regulatory and law enforcement agency; and

WHEREAS, the Joint Committee on Gaming and Wagering finds that it is in the best interest of the effective regulation of legalized gaming to isolate the Missouri Gaming Commission from political issues or involvement; and

public. However, recent inquiries from the Missouri Government Review Commission (MGRC), prompted by responses from the Highway Patrol to an MGRC questionnaire, suggest that policy makers may consider other, more efficient ways to allocate scarce state law enforcement resources. With this in mind, it is now imperative that we build more flexibility into the gaming statutes to allow us to adapt to potential changes in administrative policy and, perhaps more importantly, to allow the Commission to adapt to changes in personnel that might be brought about as a result of a statewide emergency that would require highway patrol officers on riverboat casinos to be reassigned. In the absence of policy direction from the Governor and/or General Assembly, the Commission's only plan would be to use the proposed statutory provisions to commission a few seasoned gaming enforcement managers who have extensive law enforcement experience. We believe the time to act on this issue has come and ask that you give this issue your most serious consideration in the 2006 legislative session.

The Commission also recommends legislation be adopted requiring casinos to pay interest on delinquent admission fees. A decision by one of the Commission's hearing officers pointed out that the current gaming statute provides specific language allowing the Commission to impose interest on delinquent adjusted gross receipts taxes. However, the language is missing from the section imposing an admission fee. Thus, the Commission cannot assess interest against delinquent admission fees until the legislature grants it the authority to do so.

Finally, the Commission recommends the General Assembly enact legislation directing that jackpot winnings of problem gamblers who have voluntarily excluded themselves from Missouri casinos be deposited into a fund for problem gambling prevention and treatment. Under the provisions of Missouri's internationally renowned voluntary exclusion program, problem gamblers who have excluded themselves are ineligible to place a wager. Thus, if the problem gambler surreptitiously enters the casino, illegally places a wager and wins a jackpot, the current law allows the casino to keep the money. The Commission believes a better policy is to deposit the money into the Compulsive Gamblers Fund and asks that you enact legislation authorizing the Commission to redirect the funds.

Perhaps the most significant action by the Commission during the past fiscal year was the completion of the prioritization process for new licensees in the St. Louis metropolitan area. The Commission spent more than a year analyzing the submission of applications for six casino locations. The process was very competitive with the Commission receiving quality proposals from four companies. The process was also very open, as the Commission held enough public hearings so that any member of the public who wished to be heard on the issue was given the opportunity to

WHEREAS, the Joint Committee on Gaming and Wagering finds that relieving the Missouri Gaming Commission from the requirement of reporting to the General Assembly on the effect of loss limits will benefit the Commission by allowing it to focus entirely on its mission of administering laws and regulations maintaining the integrity of commercial and charitable gaming in Missouri;

NOW, THEREFORE, BE IT RESOLVED, that the Joint Committee on Gaming and Wagering recommends that the provision of Section 313.837, RSMo, requiring the Missouri Gaming Commission to report annually to the General Assembly the effects of loss limits on the competitiveness of the gaming industry in Missouri be repealed.

speak directly to the Commission in an open forum. The quality and fairness of the selection process can perhaps best be judged by the absence of any significant controversy or negative media coverage following the Commission's selection of Pinnacle Entertainment as a priority for investigation for its projects in downtown St. Louis and in St. Louis County.³

The Commission is particularly grateful for the cooperation and professionalism exhibited by the St. Louis City and County governments. Each of these entities has been very helpful during the process in providing the Commission with information and in establishing the clear support of their communities for a casino development. The Commission has never licensed a casino in a community unless there was substantial and widespread support for it. The Commission continues to believe that local community support is critical to the selection and licensing process. Local governments play a critical role in this process but are also at risk of falling to the temptation of unethical or illegal conduct.⁴ The Commission's experience with St. Louis City and County officials thus far has been excellent and they are to be commended for their handling of this highly volatile issue.

Governor Matt Blunt appointed two new members to the Commission in 2005. Both members bring a wealth of experience in business matters and public service. Darryl Jones is an experienced businessman who also has a lengthy record of serving the St. Louis community as both an appointed official and a volunteer. Noel Shull is a veteran of the banking industry who will bring much needed expertise to the Commission's oversight of complex financial matters. Both members will help build upon the solid foundation that has been laid by previous Commissioners.

³ The Commission has been sued by Columbia-Sussex Corporation who asserts that the Commission does not have the authority to issue a license to Pinnacle Entertainment in downtown St. Louis because its proposed casino location is more than 1,000 feet from the Mississippi River as defined in statutes and the Missouri Constitution. The Commission views this lawsuit as more of an action by a potentially competing casino company than a protest against the selection process. The selection process provided for a meticulous examination of site related issues by an outside consultant who concluded that the site was within 1,000 feet of the river according to the legal definition established by the legislature.

⁴ In 1999, former Kansas City Port Authority Chairman, Elbert Anderson, was sentenced to a federal prison term for his role in a bribery scheme involving Hilton Casino officials. The indictments also involved Kansas City Councilwoman D. Jeanne Robinson and former Jackson County Legislator James Tindall, as well as Hilton executive Mark Rousseau.

Section 313.837 Report on Competitiveness

Introduction

Since its inception, the Missouri law governing riverboat gambling has included a loss limit of \$500 per person for each “gambling excursion”, now a legal fiction used only for purposes of collecting the \$2 admission fee and administering the loss limit.¹ Missouri’s loss limit emulated an Iowa law that was repealed in 1995. Missouri is now the only jurisdiction in the world imposing a loss limit on its gambling customers.

Section 313.837, RSMo, requires the Commission to report annually to the General Assembly “the status of the competitiveness of Missouri excursion gambling boats when compared to the gaming tax rate of adjoining states and the effects of the loss limit imposed by subdivision (3) of Section 313.805, RSMo, on the competitiveness of the gaming industry in Missouri.”

Competitive Impact of the \$500 Loss Limit

For the past ten years, the Commission has fulfilled this statutory requirement by reporting that the data unequivocally shows the loss limit renders Missouri casinos less competitive than casinos in neighboring jurisdictions. The Commission believes that the data reported during this tenure offers the General Assembly sufficient information to assess the impact of the loss limit on the competitiveness of Missouri casinos versus those in neighboring jurisdictions.

For the past several years, the Commission has asked the General Assembly to consider legislation repealing this requirement and thus allowing the Commission to step away from this often-volatile political issue. During the 2005 legislative session, the Joint Committee on Gaming and Wagering endorsed this concept by adopting a resolution recognizing the importance of maintaining an independent Gaming Commission that is isolated from involvement in such political issues.²

Competitive Impact of Missouri’s Gaming Tax Rate

The gaming tax rates imposed on riverboat gaming operations in Missouri have not changed since the first licenses were issued in May 1994. Missouri law imposes an 18% tax on the adjusted gross receipts (AGR) of riverboat gaming operators.³ In addition, a local tax of 2% on AGR is collected by the state and distributed to each home dock city or county.⁴

The statute also imposes an admission fee on the operators of excursion gambling boats in the amount of two dollars (\$2) per patron, per excursion, which is split between the home dock community and the state.⁵ Furthermore, pursuant to Section 313.824, RSMo, excursion gambling boat operators are charged for the cost of gaming agents who are assigned to the riverboat with the responsibility of protecting the public. While the cost of Commission agents varies with each operation, the average annual cost is approximately \$611,000 per gaming facility.

Despite the massive tax increases recently enacted by Illinois, Missouri’s gaming tax rate remains among the top tier in the United States. The Commission continues to believe that graduated gaming tax rates, such as that adopted by Illinois, represent bad economic policy. Graduated tax rates based on gaming

¹ Section 313.800.1(8), RSMo., defines a “gambling excursion” as “the time during which gambling games may be operated on an excursion gambling boat whether docked or during a cruise.” Riverboat gambling operators are required to submit an excursion schedule to the Gaming Commission, which is responsible for approving the schedule. Most excursions are two hours with the exception usually being the last excursion of the gaming day, which is typically three hours. Thus, as a practical matter, the loss limit is \$500 every two hours.

² The resolution stated, in part, the following:

WHEREAS, the Joint Committee on Gaming and Wagering recognizes the importance of maintaining the independence of the Missouri Gaming Commission; and

WHEREAS, the Joint Committee on Gaming and Wagering believes that requiring the Missouri Gaming Commission to report on the effects of loss limits unnecessarily involves the Commission in a political issue, which is inconsistent with the duties of an impartial regulatory and law enforcement agency; and

WHEREAS, the Joint Committee on Gaming and Wagering finds that it is in the best interest of the effective regulation of legalized gaming to isolate the Missouri Gaming Commission from political issues or involvement; and

tax revenue penalize companies for placing capital at risk. Furthermore, high graduated tax rates discourage reinvestment of profits in such things as new technology, the construction of non-gaming amenities and marketing dollars used to grow the business. Finally, such tax policy inevitably results in layoffs and fewer job offerings.⁶ In summary, this type of tax policy encourages poorly maintained, understaffed facilities that cater primarily to local customers.

Illinois Tax Increase Summary

Tax Bracket (AGR)	Previous Rate	2002 Increase
Less than \$25 million	15.0%	15.0%
\$25 - \$50 million	20.0%	22.5%
\$50 - \$75 million	25.0%	27.5%
\$75 - \$100 million	30.0%	32.5%
\$100 - \$150 million	35.0%	37.5%
\$150 - \$200 million	35.0%	45.0%
Greater than \$200 million	35.0%	50.0%

Tax Bracket (AGR)	2003 Increase
Less than \$25 million	15.0%
\$25 - \$37.5 million	27.5%
\$37.5 - \$50 million	32.5%
\$50 - \$75 million	37.5%
\$75 - \$100 million	45.0%
\$100 - \$250 million	50.0%
Greater than \$250 million	70.0%

Illinois is currently reconsidering its tax policy. The tax hike in 2003 that produced a top rate of 70% of gross gaming revenues resulted in the loss of 3,000 jobs, a \$50 million reduction in wages and benefits for casino workers and nearly a moratorium on casino improvements other than necessary maintenance.⁷ While state revenue collections from casinos did increase, the state's take was less than half of what had been projected.

Meanwhile, Missouri's stable tax environment continues to attract substantial investment dollars despite Missouri's strict regulatory stance in other areas. Since the licensing of the first casinos in 1994, approximately 60% of the operating cash flow generated by casino companies has been reinvested back into Missouri, much of it in non-gaming amenities such as hotel rooms, better infrastructure, meeting space, restaurants, movie theatres and venues for live performances. In simpler terms, for every \$100 million the Missouri casinos have generated in profit, they have invested \$60 million of it back into Missouri.

During the past legislative session, the Illinois legislature passed a bill lowering the top tax rate to 50%. At the time of this writing, the bill awaits consideration from Illinois Governor Rod Blagojevich. While this will still put Illinois towards the top of the gaming tax rate list, it will likely result in an increase in capital investment in Illinois as well as more aggressive marketing by Illinois casinos. We can expect this activity to cut into gains made over the past few years by Missouri casinos on the eastern side of the state.

In 2002, Indiana increased its effective tax rate by 5% by adopting a graduated tax rate and eliminating its boarding fee on customers staying over for more than one "excursion". While the Commission argues against the graduated tax rate, the policy has not had a negative impact on Indiana gaming revenues because the legislature coupled regulatory reforms with the tax increase. Before

WHEREAS, the Joint Committee on Gaming and Wagering finds that relieving the Missouri Gaming Commission from the requirement of reporting to the General Assembly on the effect of loss limits will benefit the Commission by allowing it to focus entirely on its mission of administering laws and regulations maintaining the integrity of commercial and charitable gaming in Missouri;

NOW, THEREFORE, BE IT RESOLVED, that the Joint Committee on Gaming and Wagering recommends that the provision of Section 313.837, RSMo, requiring the Missouri Gaming Commission to report annually to the General Assembly the effects of loss limits on the competitiveness of the gaming industry in Missouri be repealed.

³ Adjusted gross receipts are defined by Section 313.800, RSMo, as "the gross receipts from licensed gambling games and devices less the winnings paid to wagerers." In other words, the amount the casino "wins" from patrons. It is often referred to as "casino win". The tax on AGR is set forth in Section 313.822, RSMo.

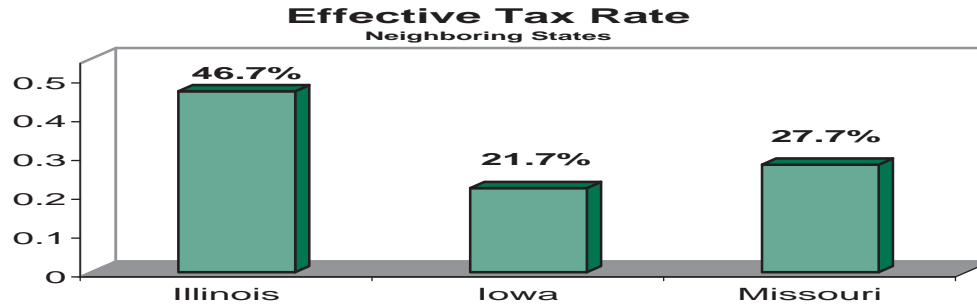

⁴ Section 313.822, RSMo.

⁵ Section 313.820, RSMo.

⁶ "Casinos blast Illinois tax increase", Chicago Sun Times, September 3, 2003, quoting Illinois Casino Gaming Association executive director Tom Swoik, "As a direct result of this tax policy, we have laid off nearly 700 employees and are not filling close to 600 additional vacancies. Additionally, we anticipate there may be further layoffs in the months to come."

2002, Indiana imposed restricted boarding and mandatory cruising. In conjunction with the 2002 tax increase, Indiana rescinded the boarding and cruising requirements, thus allowing casino operators to effectively absorb the tax increase.⁸

⁷ WJLA.com news service.

⁸ For the 12 months ended June 2003, Indiana casinos realized a \$233 million increase in gaming revenue, while taxes increased only about \$165 million. Gaming revenue continued to outpace taxes in FY 2004.

While the Iowa tax rate is lower than Missouri's, it is comparable; and like Missouri, its tax structure has not changed since initial enactment. There is no evidence that the lower Iowa tax rate is having negative impact on the competitiveness of Missouri casinos. Certainly, over the long term, the fact that Indian casinos in Kansas pay no tax will have an impact on western Missouri gaming operators. You should also be aware of the potential for rapid expansion of Kansas Indian casinos. Finally, Missouri casinos have been profitable in spite of the high tax rate largely because of the Commission's gradual approach to licensure. The Commission's practice of waiting to introduce new gaming capacity into a market until there is adequate demand allows Missouri licensees to remain profitable and encourages them to reinvest in Missouri.

Summary

The Missouri tax rate remains among the highest in the gaming industry. However, its structure has some inherent advantages over Illinois and the lower tax rate in Iowa does not appear to be affecting the competitiveness of the Missouri operators.

Staff Report

EXECUTIVE DIRECTOR

Kevin Mullally

The Missouri Gaming Commission, created in 1993, has worked hard to quickly establish itself as a national leader in providing efficient, effective regulation of the often-controversial gaming industry. To do this, the Commission has relied on the hard work and dedication of its employees as well as maintaining a focus on its strategic mission and vision.

The Commission is currently an agency in transition. It is moving out of its formative stage into a more mature agency and is developing meaningful, relevant performance measures that the executive branch, legislators and citizens can relate to and understand. Among the Commission's goals for FY 2006 is to establish itself as a leader in the area of performance measurement. The Commission's "Managing for Results" initiative will create an agency that has clear goals and objectives and uses regulatory and enforcement tactics that track progress in achieving the goals and objectives. It will use information management systems to report the measures to a range of audiences for a variety of uses, so that our measures are not only understandable for each audience but relevant, as well. Our measures will be such that they can be used to make informed decisions regarding priorities, program management and budget allocation.

Admittedly, this is a formidable goal for a regulatory and enforcement agency where it is inherently difficult to develop meaningful performance measures (how do you measure criminal activity avoided, risks mitigated, hazards eliminated, patterns of noncompliance addressed?). A common practice in performance measurement reporting is to evaluate the effectiveness of "programs". This practice is not generally applicable to a regulatory and enforcement agency like the Gaming Commission because, as a general rule, it doesn't have a variety of "programs".

The Commission's mission is rather simple and straightforward – "To serve the citizens of Missouri by ensuring the integrity of charitable and commercial gaming and by optimizing its social and economic impact on the state." Thus, the Commission's performance measurement system is more likely to account for and evaluate various tactics used to achieve broader strategic goals. For instance, a recurring goal of the Commission will be to maintain a zero tolerance for convicted felons and persons involved in organized crime participating in gaming operations. In order to achieve this goal, the Commission will use a variety of tactics that might include investigations, intelligence gathering, enforcement actions such as penalties for companies who fail to perform adequate due diligence on prospective employees, information campaigns educating the industry on techniques to identify non-qualifying employees and partnership initiatives with other state regulatory and law enforcement agencies. For a correlating example, think of how your doctor might prescribe a combination of medicines that, when taken in concert, will treat your illness while eliminating one of the medicines

renders the treatment ineffective.¹ So it is with regulatory practice; it is the coordination of resources that results in effective risk management.

One of the major staff initiatives during the past fiscal year was the enhancement of the Commission's technical oversight of electronic gaming devices (EGDs) that was authorized by the General Assembly in 2004. The Commission has been able to augment its EGD technical staff without increasing its FTEs through a "core swap" that exchanged eight highway patrol positions for less expensive EGD technicians. These employees are skilled and highly specialized through extensive training on the incredible variety of EGD platforms and technologies that are constantly being updated. Technology is one of the principal forces driving new gaming revenue and fierce competition in the industry requires employees who are constantly learning and adapting to new technology. Employees in this area do not have time to invest in other areas of regulation as was required of highway patrol officers who had previously been performing some work in this area. The new system is proving to be much more efficient and effective, and Missouri citizens will benefit because it allows new technology to move into the state more quickly, thus helping all the businesses that support EGDs (including, but not limited to, trucking and transportation, electrical workers, advertisers, printers, associated equipment manufacturers, distributors and retailers).

One of the major initiatives for the upcoming fiscal year will be a review of the Commission's internationally recognized voluntary exclusion program for problem gamblers.² Recent scientific studies indicate that allowing a menu of options rather than a "lifetime only" program would be more useful to a wider array of problem gamblers. The proposed changes will also include a behavioral education program designed to provide individuals with the opportunity to learn how to make healthier decisions. The education program will target areas of behavioral health that are weak areas for problem gamblers and their loved ones. Problem gamblers will need to complete this behavior education program prior to seeking to terminate a temporary self-exclusion.

The Commission staff believes that these changes are important to the evolution of the voluntary exclusion program. They signify the Commission's continued dedication to explore new and better ways to assist problem gamblers with their recovery. The proposed changes will be openly debated and citizens will have ample opportunity for public comment during public hearings and through the submission of written comments. The staff expects to submit the proposed changes to the Commission during FY 2006.

ENFORCEMENT

Steve Johnson, Chief Deputy Director
Director of Enforcement

The enforcement section has enjoyed an extremely productive year in its role as the operational center of the Commission. We continue to be focused on the safety of patrons and staff, the integrity of gaming

¹ This example is adapted from *The Regulatory Craft*, by Malcolm K. Sparrow, Brookings Institute Press, 2000, pg. 285.

² Missouri's voluntary exclusion program for problem gamblers was the first government sponsored exclusion program. In addition to being the world's largest and most comprehensive program, it has also served as a model for other jurisdictions. Some of the jurisdictions that have used Missouri as a model include Illinois, Indiana, Michigan, New Jersey, Arizona and Louisiana.

and the protection of assets as we execute our many responsibilities. The changes in Electronic Gaming Device (EGD) technology and the many new games being approved continue to result in a relatively small number of patron complaints, with many of these complaints resulting from a lack of understanding of the game being played. In all cases, we investigate, report and respond to the patron with the results of our investigation.

The enforcement section is involved in a wide variety of specific activities including, but not limited to, charitable gaming, policy development, coordination of the industry discipline system, new construction and expansion oversight, promotions approval and a host of licensing activity including individuals in various capacities, suppliers and corporate entities. We rely on a diversified staff to accomplish our mission, including individuals with major metropolitan, state and federal law enforcement backgrounds. This staff represents hundreds of years of investigative experience. We have utilized the Community Oriented Regulation and Enforcement (CORE) concept in developing regulations, Minimum Internal Controls (MICs) and procedural requirements, generating involvement and buy-in by all affected parties resulting in a timelier and more efficient rule making process. Our reliance on CORE has permitted us to rewrite various sections of regulation and add additional MICs and policies greatly facilitating competitive growth and accommodating new technology.

The Commission's electronic gaming device program continues to be recognized as an innovative industry leader in an extremely fast paced environment. This is a very competitive industry, which forces us to work hard to maintain the competency levels necessary to do our jobs. Missouri's leadership and expertise in this field is evidenced by an invitation to speak at the Global Gaming Exposition (G2E), a gathering of more than 25,000 gaming manufacturers, operators and regulators. We have also been invited to speak at Gaming Laboratories International's Regulators Roundtable, a meeting attended by 128 regulators from 50 or so jurisdictions.

Our day-to-day activities include conversions, upgrades, replacement of revoked or obsolete software, installation and oversight of redemption kiosks, installation of ticketing systems and a host of other EGD related activity. We routinely verify critical software and programs, seal critical program storage media and conduct function testing on various devices and systems. We have implemented an EGD Specialist program that has resulted in the retention and assignment of eight intensively trained specialists in the St. Louis and Kansas City areas. Previously, these functions were performed by Highway Patrol Gaming Agents assigned to the Commission; however, the aforementioned evolution in this business has resulted in the need to dedicate highly trained specialists to this function. The number of devices in play in Missouri will result in the Highway Patrol Gaming Agents remaining active in this aspect of regulation although it is anticipated the very high number of overtime hours worked by the Patrol Agents will be reduced. Finally, our EGD program is moving into a paperless environment with the development of network and web based systems. This environment results in documentation for approval, software approvals and revocations being immediately available to all

casino EGD personnel as well as our own staff. This timely notification is absolutely necessary to protect the integrity of gaming in our state.

Audit – The Commission compliance audit staff conducts audits of each casino in Missouri to identify areas of noncompliance with statutes, regulations and internal controls. This year the audit department instituted a new audit approach, which includes an audit program that addresses critical areas directly related to the integrity of gaming. We believe this process will allow more efficient review of each casino's operations. Our audit staff interprets the applied policies and recommends corrective action for areas of noncompliance when conducting audits and assisting gaming agents with investigations. The casino's internal audit department conducts semi-annual audits, which our audit staff reviews to detect irregularities that require corrective action and also ensures that proper corrective measures have been taken. The audit staff performs the same procedures for external audit reports completed by various independent audit firms. During the year, our auditors attend internal and external audit cash counts and observe numerous coin and token relocations and destructions. Our auditors comply with the Standards for the Professional Practice of Internal Auditing and Government Audit Standards. During FY 2005, the audit staff completed 38 audit reports reflecting the results of audits of various casino operations.

Licensing - The Missouri Gaming Commission is charged by statute to license excursion gambling boats, suppliers of gambling equipment and occupational licensees involved in an occupation within an excursion gambling boat operation. Licensing staff currently coordinate and implement the licensing and renewal of eleven (11) Class A (riverboat) licensees, nineteen (19) suppliers, eleven (11) Class A liquor licenses and over 12,500 active occupational licensees.

FY 2005 brought an array of licensing activity regarding Class A and supplier licensees. Class A applications were filed by Herbst Gaming, Inc. (HGI-Mark Twain and HGI-St. Jo) due to the purchase of St. Jo Riverboat Casino and Mark Twain Casino from Grace Entertainment. Pinnacle Entertainment's projects in downtown St. Louis (Casino One Corporation-City) and in Lemay (Casino One Corporation – County) were selected as priorities for investigation. St. Louis Riverboat Entertainment, Inc., a subsidiary of Wimar Tahoe Corporation/Columbia Sussex Corporation, filed application for a finding of suitability by the Commission and authorization of a change in control to acquire President Riverboat Casino-Missouri, Inc. Harrah's Maryland Heights, LLC's two Class A licenses were consolidated to one Class A license doing business as Harrah's St. Louis Casino. Penn National Gaming, Inc. filed application for the purchase of Argosy Gaming Company.

Konami Gaming was issued a temporary supplier license. Paul-Son Gaming Corporation initiated a name change to Gaming Partners International Corporation (GPI USA), and the sister subsidiary of GPI USA, Gaming Partners International S.A.S., filed application and was granted a temporary supplier license. Two supplier companies (Anchor Coin, Inc. and Spin for Cash WAP, JV.) dissolved and now fall under the supplier license of IGT. Casino Data System's supplier license was surrendered with all business transactions

now conducted through the parent company, Aristocrat Technologies, Inc. Two suppliers (Kilmartin and R. Franco USA) withdrew applications for Missouri licensure.

License 2001, a statewide licensing system, provides the Commission a vehicle to license and track all occupational licenses, as well as generate a monthly invoice for fees associated with applications, licenses issued, duplicate licenses and renewals for Key/Level I, Level II and service technician occupational licenses. Occupational gaming licenses issued statewide for FY 2005 totaled over 3,300, with approximately 8,300 renewals. The proposal to outsource for development of a more modernized licensing system to ensure the integrity and accuracy of this statutory mandate was declined; therefore, requirements gathering continues to allow an advanced, all inclusive licensing system to be developed by MGC Information Technology staff to provide consistency, reliability and increased efficiency for the State of Missouri. Projected increase in occupational licensees in the next two years could range from 1,000 to 3,000, depending on the St. Louis City and County proposed projects.

Pari-Mutuel Horse Racing – Pari-Mutuel Horse Racing was established in the State of Missouri with the enactment of Senate Bill 572 in 1986. This allowed for wagering on the outcome of horse races in which those who wager purchase tickets of various denominations on a horse or horses in one or more races. To this date no track has been established in the state. The Gaming Commission was assigned the responsibility for governing pari-mutuel horse racing from the Missouri Horse Racing Commission in 1997.

Missouri State Highway Patrol – The Gaming Division of the Highway Patrol, pursuant to a memorandum of understanding with the Gaming Commission, provides criminal and regulatory enforcement of gaming operations within the state. Under the command of Captain Robert Bloomberg, the division is divided into four sections: Eastern District Enforcement, Western District Enforcement, Background Investigations and Administrative Services. The enforcement districts are responsible for enforcing Missouri statutes and Commission regulations on licensed casino properties. The background unit conducts investigations of individuals, companies and suppliers applying for licensure with the Commission, as well as persons applying for employment with the Gaming Commission. The background unit has a section that is responsible for enforcement related to charitable games in Missouri. The administrative services section oversees the collection and preservation of evidence and property, division training, criminal records and case management and special projects performed by the Gaming Division.

Charges listed in the chart on the following page were filed as a result of arrests made by troopers assigned to the Gaming Division from July 1, 2004 through June 30, 2005.

TYPE OF CHARGE	NUMBER	TYPE OF CHARGE	NUMBER
Arson	1	Motor Vehicle	81
Assault	44	Obstruction of Judicial Process	598
Burglary	2	Obstructing Police	18
Damaged Property	16	Peace Disturbance	7
Dangerous Drugs	73	Public Order	1
Family Offense	8	Robbery	4
Flight/Escape	13	Sex Offenses	3
Forgery	53	Sexual Assault	1
Fraud	44	Stealing	158
Violation of Gambling Laws	230	Stolen Property	5
Invasion of Privacy	2	Weapons	5
Violation of Liquor Laws	7		
Miscellaneous Federal Charges	6	Total Charges	* 1,380

*These totals reflect the number of charges filed by agents of the Commission. The number of individuals arrested will be lower as some individuals may have multiple charges filed as a result of an individual incident. These totals also include arrests made attendant to outstanding warrants for criminal activity that did not occur on property of excursion gambling boats.

ADMINISTRATION

Deborah A. Ferguson, Deputy Director

The administration section of the Missouri Gaming Commission is responsible for managing all fiscal, personnel and record retention resources of the agency. In addition, the administration section provides support services to 119 Commission employees and, pursuant to a memorandum of understanding, to 110 Highway Patrol officers assigned to the Commission. This section oversees the operating and leasing budgets, revenue collection, accounts payable, accounts receivable, cost accounting, procurement, facilities management, support services, human resources, asset inventory and records management.

FY 2005 for the administration section was marked by change. We had change in personnel, expense per diem, purchasing practices, facility management and records management.

Personnel changes included the replacement of our fiscal manager, a position that is critical in working with management to implement performance based budgeting for the Commission. Performance based budgeting is the key to moving forward with both internal and external assessment of how the Commission is managing its resources and achieving its goals and objectives. This will be an ongoing process. At the end of the fiscal year we lost our purchasing officer and have moved quickly with filling this position, as well.

Additionally, this past year the Commission decentralized its procurement by allowing the office managers in Kansas City and St. Louis to be issued purchasing cards for small re-occurring purchases. Purchasing (travel) card was also issued to the account clerk to enable the Commission to make purchases from the internet for travel. This new procedure allows the Commission to take advantage of lower fares when offered.

With the passage of SB 1020, 889, & 869 the Commission was tasked with reviewing our practice for sunshine law requests. Specifically, administration worked with legal, bingo and public information to review

its copy fee charges and update them to insure our practice was consistent with legislative intent. As a result of this coordinated effort a new database is maintained on the Commission public drive to track all sunshine requests.

Also in the area of record retention, the records manager worked with the DAP program manager to establish a record retention schedule with the Secretary of State's office.

The administration section has had another very successful year, and continues to strive in creating and developing more effective and efficient ways of providing quality service.

The data below shows the proceeds, including interest earned, from riverboat gaming and charitable bingo for education and veterans:

PROCEEDS TO EDUCATION		
	Riverboat Gaming	Bingo
FISCAL YEAR 1995 THRU 06/30/1995	\$56,616,282.04	\$6,253,703.96
FISCAL YEAR 1996 THRU 06/30/1996	\$99,730,320.67	\$4,684,178.52
FISCAL YEAR 1997 THRU 06/30/1997	\$118,419,389.02	\$4,615,579.50

The Missouri Gaming Commission follows Section 313.835, RSMo, for operating fund transfers. It states: "All revenue received by the Commission from license fees, penalties, administrative fees, reimbursement by any excursion gambling boat operators for services provided by the Commission and admission fees authorized pursuant to the provision of Section 313.800 to 313.850, except that portion of the admission fee, not to exceed one cent, that may be appropriated to the compulsive gamblers fund as provided in section 313.820, shall be deposited in the state treasury to the credit of the 'Gaming Commission Fund' which is hereby created for the sole purpose of funding the administrative costs of the Commission, subject to appropriation."

The statute also provides that the remaining net proceeds in the Gaming Commission Fund for each fiscal year are distributed to various funds in amounts defined in the statute. Additionally, the first five hundred thousand dollars shall be appropriated on a per capita basis to cities and counties that match the state portion and have demonstrated a need for community assistance. As a result, the amounts below have been transferred since inception to the Gaming Commission Fund.

Missouri Gaming Commission Summary of Fund Transfers from Gaming Commission Fund						
Fiscal Year of Transfer	Veterans Commission Capital Improvement Trust Fund	Missouri National Guard Trust Fund	Mo College Guarantee Fund	Early Childhood Development, Education and Care Fund	Compulsive Gamblers Fund	Totals
FY 1994/1995	\$8,408,536.13					\$8,408,536.13
FY 1996	\$23,487,182.59					\$23,487,182.59
FY 1997	\$30,388,830.54					\$30,388,830.54
FY 1998	\$35,905,493.46					\$35,905,493.46
FY 1999	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$30,237,763.51		\$40,737,763.51
FY 2000	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$34,217,803.75		\$44,717,803.75
FY 2001	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$30,691,290.20	\$46,612.00	\$41,237,902.20
FY 2002	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$31,266,433.92	\$398,074.00	\$42,164,507.92
FY 2003	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$33,947,613.45	\$489,850.00	\$44,937,463.45
FY 2004	\$6,000,000.00	\$4,000,000.00	\$5,000,000.00	\$30,320,589.96	\$489,850.00	\$45,810,439.96
FY 2005	\$6,000,000.00	\$4,000,000.00	\$5,000,000.00	\$30,952,627.54	\$489,850.00	\$46,442,477.54
Totals	\$125,190,042.72	\$23,000,000.00	\$32,500,000.00	\$221,634,122.33	\$1,914,236.00	\$404,238,401.05

The Commission report reflects all transfers for a given fiscal year to include end of year transfers that occur in July for June activity. These figures will vary from those shown in the state accounting system (SAMII), which does not have a means to account for lapse period transfers.

Effective August 28, 2003, the 92nd Missouri General Assembly, at its First Regular Session, passed House Bill 444 changing the distribution of net proceeds in the Gaming Commission Fund each year. Under the provisions of this bill, the total distribution for each fund will be as follows: \$6 million to the Veterans' Commission Capital Improvement Trust Fund; \$5 million to the Missouri College Guarantee Fund; \$4 million to the Missouri National Guard Trust Fund; and the remaining net proceeds to the Early Childhood Development, Education and Care Fund.

INFORMATION TECHNOLOGY

Ray Pope, Director

The IT section has three basic functions: the installation and support of the microcomputer infrastructure, the development and implementation of process support applications and training all Commission employees in the efficient use of the computer systems available.

During this year, we have continued to make progress in the application development process. We have completed the requirements gathering for 14 systems, created design documents for 12 systems and deployed six new or revised systems. We currently have four systems in coding and two in testing. All of this was accomplished while we experienced a 50% turnover in our development staff.

The website has been routinely utilized for publishing the Commission press releases, agendas and minutes of Commission meetings, as well as job postings. We have a link that allows us to add these items to the state website at the same time. We have been delayed in the redesign of the website but plan to resume our efforts to make it more useful for the people we serve.

We have stabilized our network environment and improved production stability. We have been monitoring the network configuration capacity and it seems to be able to accommodate the Commission's data collection and delivery needs. By upgrading our desktop computers, we have been able to reduce the maintenance costs to the Commission's remote locations.

In support of the new EGD technicians implemented in the Enforcement Section, we assisted in the selection of new tablet PC's; then ordered, configured and set up the new machines. We also set up 11 laptop computers to be used at each casino for tracking upgrade levels for all installed Electronic Gaming Devices.

Training has been very active serving as primary internal testing and development of user documentation for new systems. This helps prepare for training users on the application of new systems prior to deployment. We conducted user application training to 68 Gaming employees and 25 casino employees. We also trained 348 participants in 61 Microsoft Windows and Office classes.

LEGAL

Michael Bushmann, General Counsel

The legal section provides legal advice to the Commissioners, Executive Director and other Commission staff regarding riverboat and charitable gaming issues, including review of financial transactions, interpretation of laws and regulations and analysis of policy proposals. The section assists the Commission in its quest to ensure that riverboats, bingo organizations, suppliers and individual licensees abide by all laws and rules of the Commission. In particular, Commission lawyers are responsible for drafting proposed disciplines against licensees for violations of laws or rules and presenting those disciplines to the Commission. The legal staff also serves as a liaison with the Attorney General's office regarding discipline appeals and related matters.

In FY 2005, 24 disciplines were proposed against Class A excursion gambling boat licensees. Five of those disciplines have appeals currently pending. The disciplines proposed fines ranging from \$5,000 to \$200,000 for violations such as a progressive slot machine violation, marketing violations, liquor violations, failure to remove revoked software from slot machines and failure to promptly report criminal activity to the Commission.

Level I licensees hold gaming licenses for key managerial positions within a riverboat gaming operation, such as the general manager, controller and department managers. In FY 2005, one Level I license was revoked and one license was suspended.

Level II licensees hold gaming licenses for occupational positions such as dealers, slot machine technicians and cocktail servers, to name a few. In FY 2005, disciplines were proposed against 253 Level II licensees. Of the disciplinary actions proposed against Level II licensees, 36 were license revocations, 172 were license suspensions and 45 were denials of permanent licensure.

In the past year, the bingo section imposed discipline against one bingo organization and fined one bingo manufacturer. In addition, the bingo section denied requests from seven applicants for a bingo license based on the applicants' failure to establish suitability for licensure.

CORPORATE SECURITIES AND FINANCE

Jennifer Bruns, Senior Auditor

The primary functions of the corporate securities and finance section are financial reporting, gaming market analysis, financial suitability analysis and tax collection.

The Commission provides a monthly market statistics report on its website.¹ The report provides data on adjusted gross receipts (gaming revenue), patron volume, admission counts and the amount of gaming tax and admission fees collected.

¹ www.mgc.dps.mo.gov/finan_map.html

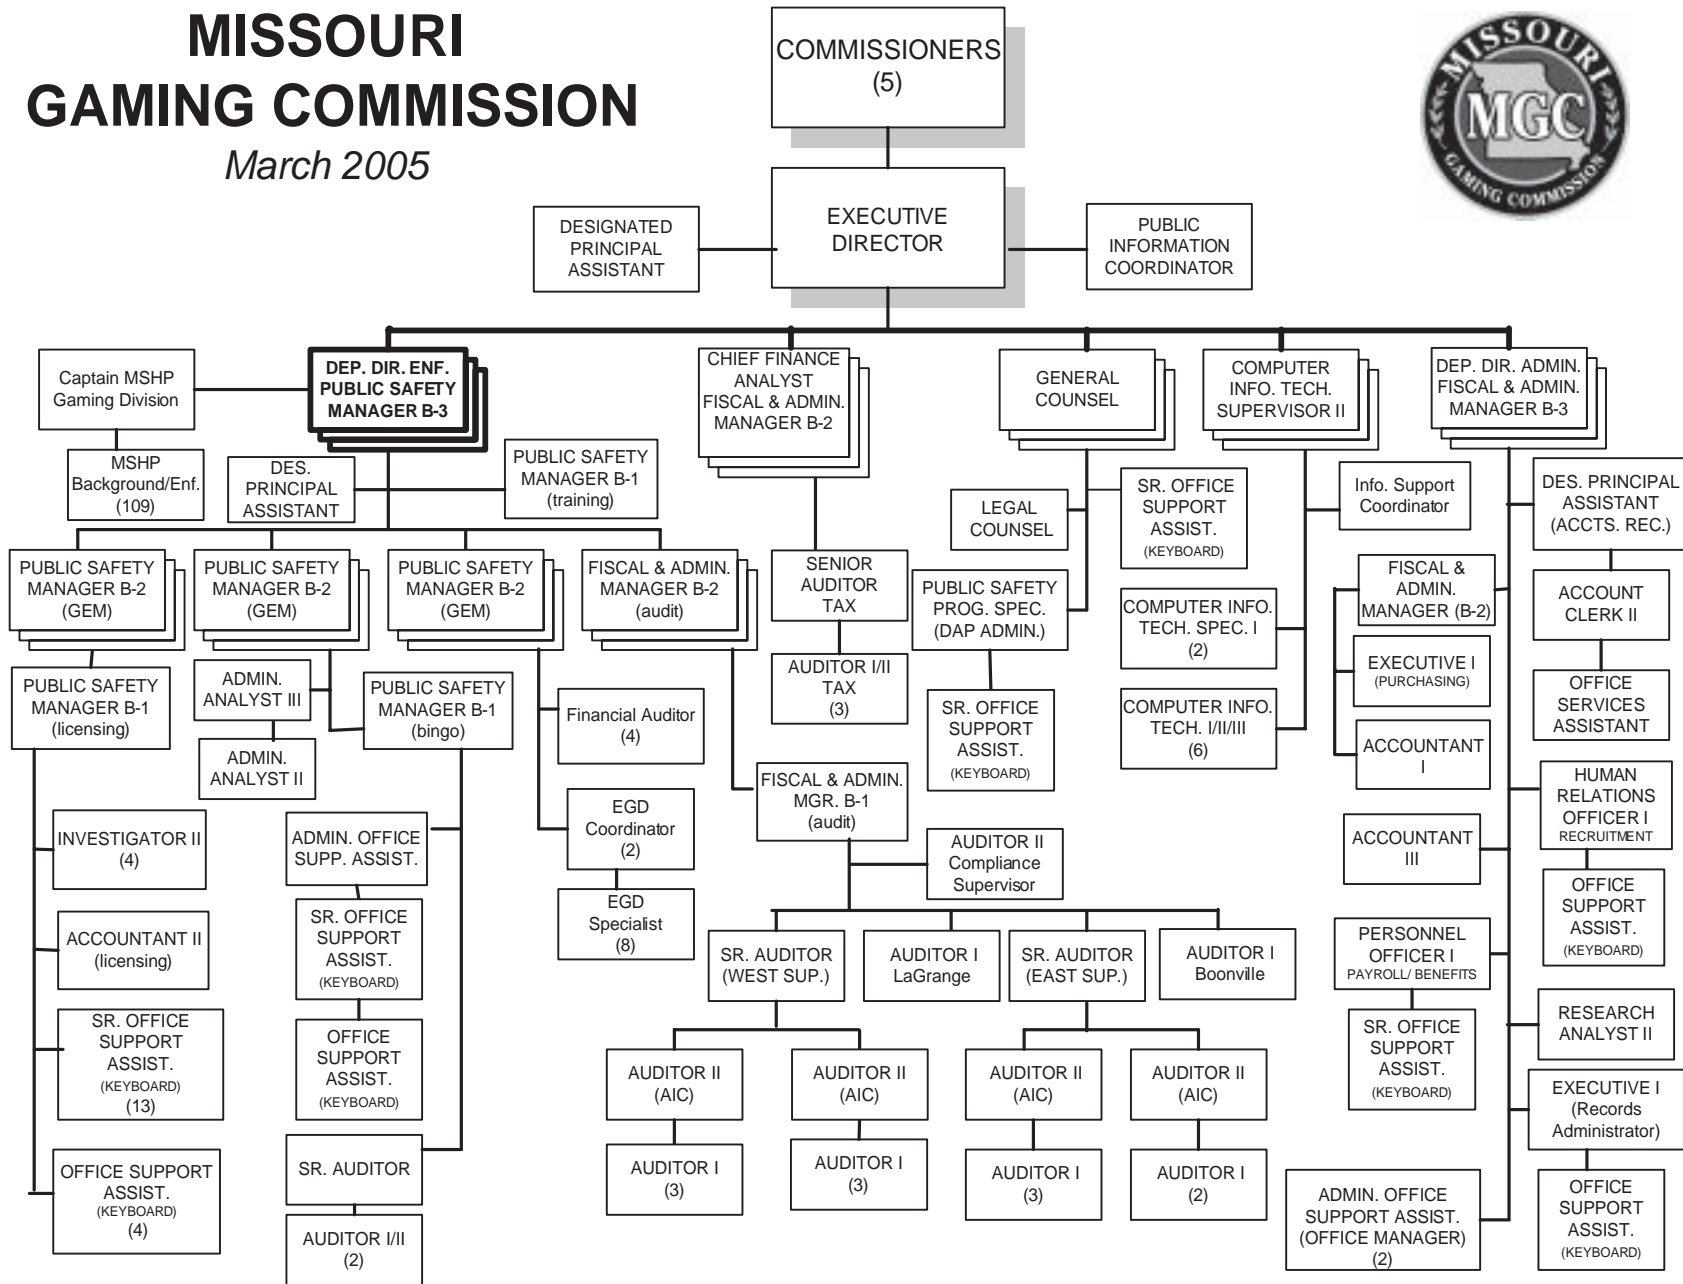

The corporate securities and finance section is responsible for analysis of the gaming markets in Missouri for the purpose of providing senior staff with information they need to make decisions regarding expansion, rule changes and regulatory resolutions. Regarding expansion, the goal is to determine the timing, number and placement of additional casinos. The Commission's charge is to issue licenses to applicants that best serve the interests of the citizens of Missouri. In order to fulfill this responsibility, the Commission evaluates many factors, including whether new gaming capacity can be added to the market without unduly impacting previously licensed facilities. The Commission, in evaluating proposals for additional licenses, focuses on creating incremental growth, expansion of tax revenues, ancillary economic development and employment. Furthermore, it carefully scrutinizes the level of community support and the ability of the developer to minimize the negative social and economic impact of the facility. Thus, Missourians can expect the Commission to deal with expansion issues in a cautious and prudent manner that includes a lengthy public process. However, should a facility become substandard, fall into disrepair or otherwise become non-competitive, the Commission would be forced to consider new projects in that market of better quality that meet the high standards it sets for licensees.

The section also examines business transactions of the licensee's parent company, including the issuance of debt or equity, acquisitions, mergers and others. This analysis is done to determine whether the financial suitability of the gaming entity will be impaired due to the transaction and whether any regulatory action is necessary.

Another function of the corporate securities and finance section is the collection of the gaming tax and admission fees assessed upon casino licensees by statute. The critical role of the tax auditors is to audit approximately 4,180 tax returns for accuracy and completeness. They also perform on-site tax audits in order to reconcile supporting documentation to the tax returns.

MISSOURI GAMING COMMISSION

March 2005

Gaming Market Report

Introduction

In each year since 1999, the Commission has used this section to articulate its philosophy for managing Missouri's commercial gaming market. Missouri statutes assign the Commission responsibility for determining the number, location and type of riverboat casinos.¹ The statute also authorizes the Commission to issue licenses to applicants that best serve the interests of Missouri.² During this period, the Commission has warned licensees, with progressive emphasis, that their failure to maintain a competitive facility will cause the Commission to consider proposals from other applicants in the market that are willing to develop facilities capable of maximizing the benefits a gaming license provides.

Realizing that downtown St. Louis lacked a casino development befitting a city of its size and stature, St. Louis Mayor Francis Slay appeared before the Commission in May 2002 to request that it consider applications for new developments that would offer a destination attraction for downtown St. Louis.³ Mayor Slay's comments and the city's subsequent RFP process attracted two high quality proposals from Isle of Capri and Pinnacle Entertainment. While potential to recapture market share in downtown St. Louis currently being lost to Illinois was evident from both proposals, the Commission chose Pinnacle Entertainment's multi-faceted entertainment complex as a priority for investigation.

The Commission also chose Pinnacle's companion project at the beleaguered National Lead site in Lemay as a priority for investigation. While this project is challenging, the Commission ultimately viewed it as a rare opportunity to pull the Lemay area community out of a 20-year economic decline.⁴ The project faces many obstacles in order to gain suitable access, thus the Commission imposed strict conditions on the priority selection. To date, Pinnacle has been able to make significant progress in obtaining the permits and approvals to build a road to the site. The September 1, 2005 due date for the first set of conditions will occur while this report is being printed. The Commission will evaluate the company's progress at that time and continue to keep you informed of developments in the regulatory process.

¹ Section 313.812.1, RSMo

² Section 313.805(1), RSMo.

³ The following is an excerpt from Mayor Slay's testimony to the Commission on May 23, 2002: "Downtown is the public face to our city and indeed to our region. It is the biggest center of employment, the home of our sports teams, the place that is St. Louis. It is even now the primary center of our metropolitan area in image and reality. We believe that the unique combination of attractions, convention center, the major league sports venues, the historic Laclede's Landing area, the Gateway Arch and growing Washington Avenue loft district make downtown a magnet for tourists throughout the region, across the nation and around the world. Gaming should be a centerpiece of that effort. We believe the St. Louis Riverfront is the best site in the state for a first-rate gaming facility with a hotel, quality restaurants and other entertainment attractions, but we do not have that on our riverfront right now. In comparison with other metropolitan areas, casino projects throughout the state, even in comparison with projects in much smaller areas, our location underachieves. In short, we want a first-rate gaming facility with all the amenities that would make it a destination attraction. We are not in the City of St. Louis casino licensing experts. That is your job. The City of St. Louis will work with you, the President and anyone else to help reach the potential that I know we can reach. The City of St. Louis and State of Missouri want and deserve something much better. We are eager to work with developers that ensure that the area north of Laclede's Landing becomes one of the premiere gaming sites and one of the premiere mixed use developments in the United States."

Statewide Market

Statewide gaming revenue increased approximately 8% to just over \$1.5 billion in FY 2005, matching the growth rate from the prior year. The gain reflects a slight increase in patron volume combined with a 7% increase in Win Per Patron (WPP). WPP is the amount the casino wins, on average, per each patron visit. The increase in WPP primarily reflects a higher slot hold percentage along with a higher table win percentage, continuing the trend from previous years. The following table offers a statewide statistical comparison of fiscal years 2004 and 2005.

	FY 2005	FY 2004	% Change
Gaming Revenue	\$ 1,509,325,000	\$ 1,404,576,000	7.5%
Patrons	25,146,000	24,915,000	0.9%
Win Per Patron	\$ 60.02	\$ 56.37	6.5%

Based on current statewide trends that show patron volume leveling off and gaming revenue and WPP levels on the rise (see following graphs), the Commission expects moderate growth to continue into the coming fiscal year with new technologies and marketing trends benefiting casino revenues.

⁴ St. Louis County has engaged in numerous attempts to market the property since it acquired it in the mid-1980's. Such attempts have involved four different county administrations. There have been numerous Requests for Proposals, direct marketing contacts with developers, as well as a variety of end-users. In addition, there have been many attempts to garner the resources to clean up the contamination and flood-proof the site but none of these have proven successful. The initial plan was to use it for a port/industrial complex but that was deemed infeasible many years ago due to excess capacity in the broader port of St. Louis market and the attendant costs of flood proofing and environmental cleanup.

Most recently, an RFP that was sent out two years ago resulted in the only qualified proposal being from the Great Rivers Greenway Project for a park and open space use that would not have to deal with the flooding problems and would avoid the environmental issue by capping the PCBs. In order to accommodate Great Rivers Greenway's interest in developing a regional trail system, Pinnacle has offered them the right of first refusal to develop the nature/biking trail going along the river side of the project.

Gaming Revenue Trend
(trailing twelve months)

Patron Volume Trend
(trailing twelve months)

WPP Trend
(trailing twelve months)

Kansas City Market

The Kansas City market posted gaming revenue of \$681 million for the fiscal year, a 5% increase over the prior year. The gain reflects an increase in patron volume as the momentum from the previous year expansions at many of the market's casinos is still carrying forward. The Kansas City market will likely report moderate growth in the coming fiscal year as more expansion plans are in the works for Argosy and Harrah's casinos.

	FY 2005	FY 2004	% Change
Gaming Revenue	\$ 680,482,000	\$ 649,317,000	4.8%
Patrons	11,666,000	11,412,000	2.2%
Win Per Patron	\$ 58.33	\$ 56.90	2.5%

St. Louis Market

The Missouri boats in the St. Louis market had another good year as gaming revenue increased 10% over the prior year, to \$670 million. The gain primarily reflects the increase in revenue despite a slight decrease in patron volume on a high WPP due primarily to the \$85 million expansion at Harrah's. This expansion included several new restaurants and a 211 room hotel tower. The St. Louis market will likely report steady growth in the coming year as the momentum carries from the added attractions at Harrah's.

The Illinois boats in the St. Louis market posted gaming revenue of \$276 million, a 3% increase over the prior year. They captured 29% of the gaming revenue in the St. Louis market, which is only a slight decrease from the previous year, but continues to indicate that the more superior facilities on the Missouri side are capturing the St. Louis market.

	FY 2005		FY 2004		% Change
<u>Missouri Boats</u>					
Gaming Revenue	\$	670,020,000	\$	611,262,000	9.6%
Patrons		10,938,000		11,040,000	-0.9%
Win Per Patron	\$	61.26	\$	55.37	10.6%
<u>Illinois Boats</u>					
Gaming Revenue	\$	276,172,000	\$	267,119,000	3.4%
Patrons		3,548,000		3,534,000	0.4%
Win Per Patron	\$	77.84	\$	75.59	3.0%

St. Louis Market Gaming Revenue
Missouri Boats Only

Other Markets

In the out-state markets, gaming revenue increased a strong 10% to \$159 million. The gain primarily reflects the 12% increase in St. Joseph and the 13% increase in LaGrange due to Herbst Gaming, Inc. acquiring these properties from Grace Entertainment. New technologies and marketing strategies have increased the revenues at both facilities in comparison to the previous years. Also, new technologies have aided the revenue growth in Caruthersville by 18% over the prior year. The out-state markets will likely continue to post strong to moderate growth in the coming fiscal year as they continue to benefit from the new technology used.

	FY 2005		FY 2004		% Change
Gaming Revenue	\$	158,822,000	\$	143,996,000	10.3%
Patrons		2,542,000		2,464,000	3.2%
Win Per Patron	\$	62.48	\$	58.44	6.9%

Other Market Gaming Revenue

Licensed Casino Locations

Charitable Gaming

Charitable gaming includes licensed bingo and associated games such as pull-tabs, merchandise coin boards and other “free” no charge promotional events. The operation of these games is restricted to qualified licensed, religious, charitable, fraternal, veteran and service organizations. In addition, to qualify for the license, the organization must possess an Internal Revenue Service 501(c) (3), (4), (5), (7), (8), (10), (19), or 501 (d) exemption. Organizations must have been in continuing existence in this state for at least five years preceding making of application and have had at least 20 bona fide members during that period.

All proceeds derived from the conduct of bingo must be used for lawful, charitable, religious or philanthropic purposes of the organization, and no part of the net earnings may inure to the benefit of any individual member of the organization.

The chart below reflects the total number of licensees over the past three years.

TYPE OF LICENSE	FY 03	FY 04	FY 05
Regular Bingo	517	483	459
Special Bingo (Valid for one event from 1 to 7 days)	350	361	309
Abbreviated Pull-Tab (Valid for 24 hours, limit 4 per calendar year)	141	142	131
Supplier	7	7	7
Manufacturer	13	13	12
Hall Provider	151	141	131

The fees charged for the various licenses within the Charitable Games Division are as follows:

Regular Bingo License	\$50
Special Bingo License	\$25
Abbreviated Pull-Tab License	\$10
Supplier License	\$5,000 (new) \$1,000 (renewal)
Manufacturer License	\$1,000 (new) \$500 (renewal)
Hall Provider License - the fee is based on the number of occasions conducted on the premises	\$150 (new per organization) \$100 (renewal per organization)

The following chart represents the licensing fees collected for the past three fiscal years. The miscellaneous fees resulted in a negative, due to the transfer of interest charged on Supplier Tax Returns to the Proceeds for Education fund.

Type of License	FY03	FY04	FY05
Bingo Licenses	\$ 36,670	\$ 36,790	\$ 33,975
Manf./Supplier Licenses	\$ 20,000	\$ 14,500	\$ 23,000
Hall Provider Licenses	\$ 13,150	\$ 10,950	\$ 10,300
Miscellaneous (statute book sales, directory sales, interest)	\$ 610	\$ 524	\$ (53)
Total	\$ 70,430	\$ 62,764	\$ 67,222

The current tax rate for bingo paper is 2/10ths of one cent per bingo face. The current tax rate for pull-tabs is 2% of the retail sales value of each pull-tab deal. The tax is remitted by the suppliers and is due by the last day of the month following the month the product was sold. The supplier retains 2% of the total due for the cost of collection. The following chart represents the bingo tax collected over the past three fiscal years. All bingo tax is deposited into the Proceeds for Education Fund.

Proceeds for Education	FY03	FY04	FY05
Supplier Tax	\$ 3,209,784	\$ 2,909,716	\$ 2,704,144
Interest Earned	\$ 143,210	\$ 86,838	\$ 94,351
TOTAL	\$ 3,352,994	\$ 2,996,554	\$ 2,798,495

The Missouri Gaming Commission adopted one new bingo regulation in FY 2005. Regulation 11 CSR 45-30.035 provides a definition of a “bingo card” which matches the definition in Section 313.005(1), RSMo. In addition, several regulations have been rescinded and many were amended. These changes were made to the regulations in an attempt to further clarify various bingo requirements and also to simplify the regulations by combining language that was contained in more than one regulation. Some of the regulations, which had an immediate effect on the operators, were Regulation 11 CSR 45-30.060, which requires the operator to notify the Commission of the bingo chairperson. Regulation 11 CSR 45-30.175, now allows the operator to destroy such records as the pull-tab flare,

winning pull-tab tickets for \$100 or more and winning bingo paper for \$200 or more, after one year. They were previously required to retain this information for three years. Regulation 11 CSR 45-30.600 was amended to clarify that the downloading into an Electronic Bingo Card Monitoring Device must be completed prior to the drawing of the first ball of a bingo game. Previously this was required to be done prior to the first ball being drawn for the entire occasion.

The bingo section received 84 complaints, 62 of which were completed in the same year. The enforcement section conducted 20 inspections during FY 2005. The audit staff assisted the enforcement section with 11 of these inspections. The audit section conducted 132 additional audits, including bingo product manufacturers, suppliers and charity game operators. Although bingo operator audits and/or inspections are generally initiated by complaints from players or members of the organization, the audit section also conducts random audits of bingo operators who had never been contacted in person by Commission representatives. At the end of last fiscal year, the audit section began implementation of a new approach to auditing the bingo operators. Previously, most operator audits were unannounced audits conducted during the operators' bingo occasions, which are usually held in the evening or on weekends. Although the audit staff was able to observe the conduct of the game, many times the necessary records needed to complete a full audit were unavailable that evening. This approach also limited the time the representatives of the organization had to spend with the staff to clarify questions or concerns. The audit staff has been setting appointments with the operators to meet with their representatives during the day to ensure the necessary records are available at the time of the audit. This allows the organization to ensure that the appropriate representatives are present to ask any questions and receive assistance in areas of concern to them. Although certain circumstances still require unannounced audits and/or inspections to observe the actual conduct of the game, the new approach has enabled us to increase the number of organizations we visit each year and has been much more efficient and cost effective for the State of Missouri.

Bingo statutes and regulations establish due dates for suppliers, hall providers and bingo operators to submit renewal applications and quarterly reports. Failure to meet the established due dates result in a penalty being assessed in the amount of \$5 per day. Penalties are also assessed in some disciplinary cases. The penalty is collected by the Bingo Division and then forwarded to the County Treasurer in the county where the company or organization is located for deposit in the county school fund. During FY 2005, the bingo section processed 198 penalties, which resulted in \$20,140.00 additional funds for various schools throughout Missouri.

Officers and/or workers of charitable organizations participating in the management, conduct or operation of bingo may only participate, if they have never been convicted of a felony. The Commission performs a criminal background check on all names submitted to ensure that no felons are involved. During FY 2005, approximately 28,447 record checks were performed and a total of 32 convicted felons were identified and excluded from participating in the management or operation of charitable games. The current number of convicted felons excluded from bingo, since 1994, is 666.

Problem Gambling

Public Health Model

The expansion of both legalized and illegal gambling opportunities challenges us to focus on the broad implications for both individual and community health. A public health model is well suited to address matters of healthy public policy, burden of illness, lifestyle behaviors and promotion of healthy decisions. Through seeking to understand the distribution and determinants of gambling problems in the general population and among subgroups, as well as the potential benefits, there is opportunity to develop effective strategies to protect vulnerable people, foster responsible choices with regard to gambling (for those who choose to participate in legal gambling activities) and improve the quality of community life.

A multi-dimensional public health framework could stimulate a better understanding of gambling, help to illuminate the determinants of problem and pathological gambling, its potential consequences and the various opportunities for multi-level interventions.¹ Like most public health issues, gambling involves a complex relationship among multiple determinants. When applied to gambling, the public health paradigm invites consideration of a broad array of prevention, harm minimization and treatment strategies targeting various elements of the model.

Generally speaking, four steps are recommended:

1. Adopt strategic goals for gambling that provide a focus for public health action and accountability.
2. Endorse public health principles. The following are three primary principles:
 - a. Ensure prevention is a community priority.
 - b. Incorporate a multi-faceted mental health promotion approach.
 - c. Foster personal and social responsibility for gambling policies and practices.
3. Adopt harm reduction strategies.
4. Allocate appropriate resources to identify and treat problem gamblers prior to their possible progression to pathological gambling.

The most cost effective way to assist potential problem gamblers and minimize the associated harms is to educate them about the risk factors so that those who are at risk either will choose to abstain from gambling or will make a concerted effort to follow the principles of gambling responsibly if they do choose to gamble, and they (or their family members) will at least recognize the symptoms of problem gambling early so that the individuals can work to avoid becoming engulfed by the condition.

Problem gambling is not an issue that can be attacked on any one front. It requires the attention, cooperation and resources of many public and private organizations. Only through a cooperative effort with other public agencies and providers of education and treatment services can this goal be efficiently and effectively achieved.

¹ Shaffer, H.J., & Korn, D.A. (2002). *Gambling and Related Mental Disorders: A Public Health Analysis*. Annual Review Public Health, vol. 23, p. 171-212

Missouri's Collaborative Approach – Missouri took its first steps toward a proactive public health model for problem gambling with the formation of the Missouri Alliance to Curb Problem Gambling (Alliance) in 1997. The Alliance, of which the Missouri Gaming Commission is an active governing member, brings together diverse groups who share a common interest of working on issues relating to problem gambling and consists of both governing and participating members.² Working together allows the members to streamline the provision of problem gambling programs and services, prevent duplication of efforts, and to be fiscally efficient with state, public and private resources - maximizing the benefit of each dollar available for problem gambling services.

The Alliance is a pivotal component in Missouri's innovative and comprehensive program to address the public health implications of gambling and problem gambling following the steps recommended by Shafer and Korn. Missouri is recognized both nationally and internationally as a proactive leader in gambling problem services. Indeed, many other states and countries have emulated various components of Missouri's multi-dimensional approach to problem gambling prevention, outreach, harm minimization and treatment, and have often expressed surprise at how much Missouri has accomplished with its limited budget.

Voluntary Exclusion Program – The Commission developed a unique voluntary exclusion program designed to provide problem gamblers with a means to acknowledge that they have a problem and to take personal responsibility for it. Although the Commission believes the voluntary exclusion program is helping many people who are suffering through a gambling problem, the Commission continues to review it and explore new ideas to get people the help they need.

This program was developed in 1996 in response to a request from a citizen who recognized the need for an external tool to self-exclude from all casinos in the state as a part of his recovery program. At that time, the consensus in the field among treatment professionals and researchers was that there is no cure for pathological gambling and, therefore, the program should be for life with no provision for removal.

The Commission has again received requests from residents seeking a problem gambling tool that better fits their needs. In response to these requests, as well as recent scientific research, Commission staff have been investigating revising the program to offer a "menu" of self-exclusion options. While the research and treatment community still advocate that pathological gamblers are unable to resume gambling activity in a responsible manner, recent research also indicates many individuals who experience problems from their gambling activity do not necessarily progress to the more extreme level of pathological gambling and may only experience episodic gambling problems during a traumatic life event, such as a divorce or loss of a loved one. These individuals could potentially benefit greatly from a tool that allows them to self-exclude for a period of time while they work their way through their personal trauma.

Furthermore, there are also a number of pathological gamblers who have expressed that they are not yet ready to commit to a lifetime self-exclusion, but are interested in some other period of self-exclusion. Anecdotal evidence has shown that many of these individuals exclude with individual Class A licensees and later choose to place themselves on the List. Therefore, they too could benefit from the availability of increased options for the self-exclusion period.

² Governing members who share the responsibility of administering the Alliance programs include: the Missouri Department of Mental Health; the Missouri Gaming Commission; the Missouri Lottery; the Port Authority of Kansas City; the Missouri Riverboat Gaming Association, a private trade organization that represents riverboat casino operators; and the Missouri Council on Problem Gambling Concerns, Inc., a non-profit advocacy group for problem gamblers.

Participating members are non-voting members who desire to participate in Alliance activities and share their unique expertise and viewpoints to assist in comprehensively addressing problem gambling issues in the state. Participating members could include local government entities that host licensed gambling activities, private social service organizations, mental health advocates, researchers, counselors and counseling agencies, education institutions, consumer credit counseling agencies, charitable gaming operators and chambers of commerce.

For more information about the Alliance or becoming a participating member, please contact Melissa Stephens at 573-526-4080.

The enhancements to the program also include a behavioral health education component targeting areas of vulnerability for problem gamblers and their family members, including building a healthier relationship with money through improving their fiscal literacy, identifying healthier coping strategies and teaching the individual to recognize and counteract their cognitive distortions about their gambling (and other high-risk) behaviors. This education component will provide problem gamblers and their loved ones an opportunity to learn how to make healthier choices about their behavioral lifestyles and choices.

There are currently more than 8,900 individuals on the List and approximately 145 applications are received each month. There was a 15 percent increase in applications for placement on the List of Disassociated Persons (also known as the Voluntary Exclusion Program) for FY 2005 over FY 2004. Indeed, more than 440 individuals initiated an application during the fourth quarter of FY 2005, a 21 percent increase over the same time period for the previous year. These appear to be statistically significant since the projected increase was anticipated to be approximately seven percent. The Commission believes the increase in program access to result from expanded outreach efforts as well as intermittent and ongoing media coverage of the Commission's current deliberations on the potential revision of the program.

Missouri Problem Gambling Research – The Department of Health and Senior Services added three questions on gambling to the 2004 BRFSS survey at the request of the Alliance. This annual survey is accomplished with support from the National Center for Chronic Disease Prevention and Health Promotion (CDC).³ The BRFSS is the world's largest telephone survey; it tracks health risks in the United States. Information from the survey is used to improve the health of the American people. Since there has not yet been a statewide problem gambling prevalence study accomplished for Missouri, this was an important step to conduct at least a brief inspection of gambling and problem gambling activity by Missouri residents. The gambling questions used for the 2004 Missouri BRFSS were identified from other states that have included them on their own state's BRFSS for several years.

The preliminary results from the 2004 BRFSS were received in June 2005 and indicated 31.7 percent of the surveyed Missouri adults acknowledged gambling in the prior 12 months. However, the Missouri Lottery's market research results indicate more than 70 percent of Missouri adults reported purchasing a Lottery ticket in the past year.

Thus, rather than indicating that less than 1/3 of Missouri adults have gambled in the past year, this result supports the anecdotal evidence from the Alliance's outreach efforts that many Missourians do not identify many locally-available and/or socially-accepted gambling activities as "gambling" and supports the need for continued education and outreach efforts. If a citizen does not recognize their activity as a gambling activity, they would be unlikely to identify any associated warning signs as an indication of a problem with gambling, and, therefore, would be less likely to access the appropriate resources for help.

³ Visit <http://www.cdc.gov/brfss/index.htm> for additional information about the BRFSS.

Responsible Gaming Education Month (RGEM) – Governor Bob Holden officially proclaimed August 2004 Missouri Responsible Gaming Education Month and events for the awareness month included an educational exhibit at the 2004 Missouri Black Expo; an exhibit, two focus groups and an educational track on underage addiction prevention and problem gambling issues at the Statewide Prevention Conference; and hosting the Midwest Conference on Problem Gambling and Substance Abuse. Class A licensees also audited their own properties and the properties of their fellow members of the Missouri Riverboat Gaming Association to ensure full compliance with the American Gaming Association’s Code of Conduct for Responsible Gaming.⁴

Missouri is the only state, to our knowledge, to set aside one month to highlight awareness activities promoting problem gambling outreach and education. In 1999, Missouri was also the first state in the country to set aside a week to promote responsible gaming and to educate its residents about the programs available to help problem gamblers. The response to the awareness week was so positive that awareness events gradually were held throughout the month. Thus, in 2003 the Alliance requested to expand from an awareness week to an awareness month. RGEW and RGEM have been extremely valuable tools to promote awareness of problem gambling as a public health issue. Although the Alliance provides outreach, presentations and exhibits throughout the year, the events that are provided within the context of a declared awareness month yield a much greater opportunity for media coverage and, therefore, reach many more citizens. The Alliance has been able to note spikes in the utilization of various problem gambling programs and services following each of the past RGEWs and RGEMs.

The Missouri Gaming Commission and other members of the Alliance have been diligently working on the events that will be the highlights of Missouri Responsible Gaming Education Month. These events will include an exhibit, one focus group and an educational track on underage addiction prevention and problem gambling issues at the NCADA National Youth Leadership Conference in St. Louis; an educational exhibit at the 2005 Missouri Black Expo; and hosting the 2005 Midwest Conference on Problem Gambling and Substance Abuse. The Missouri Riverboat Gaming Association is also providing special training on problem gambling issues for employees at each Class A licensee and launching a new awareness campaign for patrons.

Midwest Conference on Problem Gambling and Substance Abuse – The 2004 Midwest Conference on Problem Gambling and Substance Abuse was a collaborative effort with representatives from a variety of state agencies and organizations in Iowa, Kansas and Nebraska to facilitate this regional conference and to jointly apply for a grant from the Substance Abuse and Mental Health Services Administration (SAMHSA), U.S. Department of Health and Human Services. The conference was well-received and resulted in not only expanding the awareness of problem gambling as a potential co-occurring disorder among mental health and substance abuse clients, but also in the assignment of problem gambling as a core issue for the Prairielands Addiction Transfer Technology Center (PATTC). Not long after PATTC was directed to be the lead ATTC on problem gambling issues, SAMHSA issued a mandate to all ATTCs to be prepared to provide information on problem gambling issues for their service areas.

⁴ The AGA Code of Conduct for Responsible Gaming was enacted September 2003 by the AGA Board of Directors. For more information, visit http://www.americangaming.org/programs/responsiblegaming/code_public.cfm

Missouri is proud to have hosted the second Midwest Conference on Problem Gambling and Substance Abuse at the Hyatt Regency-Crown Center in Kansas City on August 24-26, 2005. Due to the success of the 2004 conference, SAMHSA chose to provide some discretionary funding to assist in funding the 2005 conference. The conference was opened with a plenary session on overcoming obstacles to outreach, treatment and recovery; this plenary session was open to the public at no cost. Registrations included attendees from throughout the U.S., as well as Canada and Sweden.⁵

National Conference on Problem Gambling—In June 2005, the National Council on Problem Gambling announced its selection of Missouri as the host state for the 2007 National Conference on Problem Gambling. The selection of Missouri to host the national conference was influenced by the key roles held by various members of the Missouri Alliance to Curb Problem Gambling in hosting the first Midwest Conference on Problem Gambling and Substance Abuse (Midwest Conference) as a featured event of Missouri's Responsible Gaming Education Month in August 2004, as well as the international reputation of both Missouri and the Alliance as proactive and innovative leaders in problem gambling programs for prevention, education/outreach and treatment.

Underage Prevention Efforts – The Alliance members jointly sponsor two in-school programs on preventing problem gambling and other addictive behaviors. Due to the common risk factors and warning signs between many of the addictive and compulsive behaviors, the need for schools to streamline their efforts on addiction education, as well as the reluctance to address problem gambling as a potential issue, the Alliance has created two innovative programs for middle-school and junior high students that use an “umbrella approach” to addressing addiction and high-risk behaviors. Both programs include extra information on problem gambling issues to help address the disparity in information and resources available. “Addiction – the Game No One Wins” is an assembly program featuring a dramatic duo who provide education on problem gambling issues.

Speakers Bureau and Traveling Educational Exhibits – The Missouri Gaming Commission participated in more than 24 speaking engagements and exhibits during FY 2005. Through these efforts Commission staff provided gambling outreach services to more than 700 individuals.

Speakers are available to provide presentations to groups and organizations throughout the state on a variety of topics relating to problem gambling and the guidelines for gambling responsibly.⁶ All presentations are free of charge and include information about the resources available in Missouri for residents who have a gambling problem, or loved one with a gambling problem.

⁵ Please visit the conference Web site at http://www.888betsoff.com/links/midwest_conference.shtml for a full list of presenters, agenda items, sponsors and details on conference happenings.

 State Sales Tax: \$2,265,000
 Charitable Donations: \$518,000
 Total Employment: 1,836
 Minority Employment: 643
 Female Employment: 863

Ameristar KC had another solid year as gaming revenue increased 9% to \$245 million, holding their market leadership position for another year. The gain can be attributed to a 9% increase in Win Per Patron over the prior year, as well as benefiting from the construction at other market casinos. Ameristar continues to post strong results and will likely show moderate growth in the coming fiscal year.

Ameristar - St. Charles

General Manager: Jim Franke
 1260 South Main Street
 St. Charles, Missouri 63301
 (636) 940-4300

Date Licensed: December 19, 2000
 Gaming Space: 130,000 Square Feet
 Electronic Gaming Devices: 3,274
 Table Games: 98
 Buffet, (6) Specialty Restaurants and Deli
 Parking Garage
 Total Employee Compensation: \$46,320,000
 Real Estate/Personal Property Tax: \$4,029,000
 State Sales Tax: \$1,685,000
 Charitable Donations: \$365,500
 Total Employment: 1,949
 Minority Employment: 567
 Female Employment: 922

Ameristar SC showed moderate growth as gaming revenue increased 5% to \$297 million, despite flat results on patron volume. The gain reflects a higher slot hold percentage combined with a slightly higher slot volume per patron. Ameristar continues to benefit from the many amenities they offer and will likely continue the trend of moderate growth in the coming fiscal year.

Argosy posted strong results as the momentum from the prior year's expansion continued. The prior year's predictions were realized as gaming revenue increased 21% to approximately \$150 million, and their market share climbed from 19% to 22%. Argosy has begun an additional \$75 million expansion project, featuring a 250 room hotel and a 1,400 space parking garage.

 Total Employment: 2,077
 Minority Employment: 739
 Female Employment: 1,045

Harrah's MH posted strong results as gaming revenue increased 18% to over \$300 million, despite a slight decrease in patron volume. This gain can likely be attributed to an increase of nearly 20% in Win Per Patron over the prior year. Also, Harrah's opened an \$85 million expansion, which includes a 211 room hotel, several new restaurants and additional meeting space.

 Female Employment: 744

Harrah's NKC reported weak results as they continued to feel the impact of the Argosy expansion and were in the process of their own improvements. The new expansion features an additional hotel tower and new parking garage. Gaming revenue fell 7% to \$185 million, along with a 5% decrease in patron volume. Harrah's anticipates the added expansion to increase their market share in the coming year.

Isle of Capri - Kansas City

General Manager: Michael Tamburelli
 1800 E Front Street
 Kansas City, Missouri 64120
 (816) 855-7777

Date Licensed: June 6, 2000
 Gaming Space: 45,300 Square Feet
 Electronic Gaming Devices: 1,550
 Table Games: 38
 Buffet, (1) Specialty Restaurant and Deli
 Parking Garage
 Total Employee Compensation: \$20,900,000
 Real Estate/Personal Property Tax: \$831,900
 State Sales Tax: \$358,000
 City Lease Payments: \$1,436,000
 Charitable Donations: \$76,000
 Total Employment: 734
 Minority Employment: 528
 Female Employment: 495

The Isle of Capri KC continued to show some growth despite the competitive market in Kansas City. Gaming revenue was up slightly to over \$100 million on a 5% increase in patron volume. They continue to work towards growing market share with aggressive marketing programs and the popularity of new poker rooms. However, significant growth will be hard to come by as expansions in other facilities attract patrons.

Original License: July 25, 2001
 Acquired by Herbst: February 1, 2005
 Gaming Space: 18,000 Square Feet
 Electronic Gaming Devices: 560
 Table Games: 14
 (1) Specialty Restaurant
 Meeting Space
 Total Employee Compensation: \$5,100,000
 Real Estate/Personal Property Tax: \$241,000
 State Sales Tax: \$88,800
 City Lease Payments: \$201,200
 Charitable Donations: \$7,600
 Total Employment: 273
 Minority Employment: 11
 Female Employment: 153

The Mark Twain Casino in LaGrange reported strong results as the property was acquired in February 2005 by Herbst Gaming. Their gaming revenue increased 13%, to \$29 million, along with a 10% increase in patron volume over the previous fiscal year. As with the St. Jo acquisition by Herbst, new marketing strategies and new slot technologies proved positive results. As these new enhancements continue, Mark Twain Casino will likely post moderate growth in the next year.

 Electronic Gaming Devices: 1,021
 Table Games: 35
 Buffet
 Total Employee Compensation: \$16,800,000
 Real Estate/Personal Property Tax: \$306,000
 State Sales Tax: \$255,000
 City Lease Payments: \$1,407,000
 Charitable Donations: \$37,800
 Total Employment: 646
 Minority Employment: 437
 Female Employment: 340

The President continues to report weak results as gaming revenue fell 1%, to \$71 million, along with a decrease in patron volume in comparison to the prior year. The decline was due to higher levels of competition at the other area casinos, including the Alton Belle and Casino Queen in East St. Louis, Illinois. Due to the marketing capabilities of the larger casinos in the market, the President will find it difficult to show growth in the coming fiscal year.

St. Jo Frontier Casino

General Manager: Craig Travers
 777 Winners Circle
 St. Joseph, Missouri 64505
 (816) 279-5514

Original License: June 24, 1994
 Acquired by Herbst: February 1, 2005
 Gaming Space: 18,000 Square Feet
 Electronic Gaming Devices: 594
 Table Games: 12
 Buffet and (1) Specialty Restaurant
 Meeting Space
 Total Employee Compensation: \$6,400,000
 Real Estate/Personal Property Tax: \$240,000
 State Sales Tax: \$103,100
 City/County Lease Payments: \$635,000
 Charitable Donations: \$33,600
 Total Employment: 273
 Minority Employment: 17
 Female Employment: 149

St. Jo posted strong results after the February 2005 purchase of the facility by Herbst Gaming. Their gaming revenue increased 12%, to nearly \$27 million, along with an 11% increase in patron volume over the prior year. The new ownership has used marketing strategies and new slot technologies to increase their results with a positive outcome. As the new enhancements continue, St. Jo will likely continue to post moderate growth in the coming year.

 NOTE: Numbers were rounded off

CITY OF ST. LOUIS

Three Primary Sources:

2% AGR Tax: Allocated to support police patrols, fire marine unit supplies and conduct public safety related capital improvements on the riverfront.

Admission Fee: Allocated to the City's Capital Fund. These funds are budgeted each year for items such as arterial street paving, bridge repair, rolling stock replacement, public building improvements, etc.

Port Authority Lease (2% of AGR): In addition to gaming taxes, this revenue is in the form of a lease payment paid to the Port Authority. These funds are generally appropriated for furthering housing and economic development efforts of the St. Louis Development Corporation (SLDC).
